Photographic Print Pricing

I order my prints from a wonderful professional printing lab that I have worked with for years. Their prints are beautiful, the shipping is fast, and their customer service is second to none :) I love working with them!

This is not an exhaustive list of print sizes or products. There are more print sizes available, as well as canvas prints, metal prints, bamboo prints, books or albums, and much more via my professional lab partner. If you are interested in more sizes, or other products, please let me know.

I place & process all my client's orders myself.

Wallets $15

There are over 50 sizes of photography prints that my professional photography lab offers, but I've narrowed this list down to the sizes that most clients request.

If you are looking for a size that doesn't appear on this list, please just let me know :)

Unless clients request otherwise, photographs are printed on lustre paper. This paper has a semi-gloss finish and will show a small sheen that is not a shiny as full gloss.

Select print sizes may also be printed on pearl paper, deep matte paper, or metallic paper.

*Prints 16x20 and larger are mounted on 3mm white styrene, a durable acid-free plastic that is resistant to warping. This is ready to frame or to stand alone.

Other types of mounting are available.
Smaller prints can be mounted on request.
